Environmental Assessment of Products: Volume 1 Methodology ...

About this book. This major two volume work presents a new decision making tool which enables manufacturers and scientists to undertake life cycle assessment (LCA) of new products from the design and development stages. The methodology allows the environmental consequences of a product to enter into decision making in the same way as traditional commercial parameters such as price, quality etc. Significantly, it is in accordance with international consensus, as defined by SETAC (Society of ...
